

E-Invoice Accounting: Budget 2025 updates and its Implementation Mechanism

HRD Corp Claimable (SBL-Khas)

The application of E-invoice in billings of commercial activities and the capturing of cost in Accounting and for tax purpose as announced by LHDN implemented in phases from Aug., 2024 onwards, is not solely a tax matter of about how much tax to pay or when to do your tax filing. The major part of it is all about your Accounting for the Revenue and Cost of the organization and the Business Operation at large, such as Sales, Purchasing, HRM, IT and all other operating staffs. When to account for the cost and revenue and when to issue e-invoice are all separate matters.

The 6 months grace period given from the mandatory implementation date for the 1st phase is going to be over end January 2025 and unless extended, full implementation is to be complied. Fine between RM200 to RM20,000, or imprisonment for 6 months or both may commence after the grace period. It has also been reported that despite the grace period given, the 1st month of implementation, Aug., 2024, saw more than 20 million e-invoice submitted to the IRBM for validation.

Then the 2nd phase group comes in w.e.f. 1/1/2025. The number of companies in this 2nd phase group could be at least 100 times bigger than the 1st group. While they may be also enjoying the 6 months period ending 30/6/2025, it will be better to start implementing and get the learning curve up than to cramp everything at the last minute.

Hence this program is to provide the necessary content of e-invoice mechanism and to equip all Accounting and Other Operational Staffs on the organization's requirement to implement e-invoice as per LHDN's requirement for their various business transactions.

The need to know when to issue an E-Invoice to customers to capture the revenue, when to issue self-bill invoice to capture the cost, when suppliers are not required to issue E-invoice but require to issue consolidated e-invoice, etc. are all essential knowledge and skills that all staffs in the organization's accounting and other departments will need to know and possess.

Objective

By the end of this program, participants will be able to:

- Understand what actually is E-Invoice and what does it entail
- Gain awareness of what are the updates via Budget 2025
- Understand the mechanism of E-Invoice
- Application of E-Invoice for different types of Business & Accounting Transactions
- Prepare and get ready for E-Invoice implementation
- Gain guidance on actions to be taken to capture revenue and cost for your business operation and for tax purposes

Pre-Requisites
